

SHARAFAHMED ABDULLAFIR

Software Engineer

ABOUT ME

Aspiring software engineering (3rd year) undergraduate from the Open University of Sri Lanka, I am seeking for entry-level position in a dynamic company. Eager to apply analytical and technical skills, and committed to continuous learning and contribution to innovative projects

WORK EXPERIENCE

Fullstack Developer

AAZA (Pvt) Ltd. | Addalaichenai, Eastern Province June - December 2023

Led a project from inception to completion, managing timelines and coordinating with team members. Engaged in fullstack development using HTML, CSS, JavaScript, Reactjs, Bootstrap, PHP, and MySQL. Collaborated with cross-functional teams to address technical challenges and deliver high-quality solutions. Proactively pursued continuous learning and growth in web development and emerging technologies.

Bachelor of Software Engineering

Open University of Sri Lanka
(2021 to date)

*completed 66 of 130 credits
until 2 years*

G.C.E Advanced Level

D.T.A Institute (2020)

*Arts Stream - 2AB
Z-score - 1.5*

PERSONAL SKILL

- Self-motivated
- Teamwork
- Communication Skills
- Adaptability for technologies
- Hard worker
- Leadership

LANGUAGE

- Tamil - Native
- English - Fluent
- Sinhala
- Arabic

PROJECT EXPERIENCE

TourWise Website

- As a developer for TourWise, I focused on frontend functionality while contributing to backend development. The web app aimed to showcase Sri Lanka's tourist destinations, providing province-wise insights for seamless journey planning. Users could create accounts, share travel experiences, and offer feedback, fostering community engagement. Admin notifications kept users informed about events and safety. Interactive maps and a "Todo Visiting" feature facilitated efficient trip planning, while details about nearby tour guides enhanced user experiences.
- Technologies used:
Backend: PHP, MySQL, AJAX
Frontend: HTML, CSS, JavaScript, Bootstrap 5
